ubermosh original soundtrack

great bass if only game was as good. very good game and legit. great bass if only game was as good. One of the best soundtracks gaming has ever seen.. pretty good. Trust me, this is worth its price.. Great soundtrack just love it. The OST for this game is fantastic! If you like the kind of music with no lyrics that sounds different than usual, then you're in for some good jams. The OST fits the game so well, here is a 10/10.. Honestly, I have to say that the soundtrack to Ubermash is one of the best that I've ever heard. The musicianship is great, as is the composition. Like the game itself, the whole album is incredibly addictive. If you enjoy rock, buzzsaw guitars and a little bit of industrial - or, if you just want to bring the pulse-pounding power of the game into your everyday routine - then this album is for you. Check it out.
